

24 July 1969

MORNING MEETING ACTION ITEM

TO: DD/I
DD/S&T

DD/S&T briefed on indicators which may suggest that the SS-11 is being modified to give it a multiple re-entry capability. He noted that developments to date parallel what happened to the SS-9. After some discussion the Director asked that he be consulted on publication of these developments.

Action Taken: 24 July 1969

A CIB item was prepared for publication on 25 or 26 July. The Director has approved a draft of the item.
